PROFESSIONAL EXPERIENCE

Software Developer

IBM - India Software Labs (ISL)

June 2021 – Present Bangalore, India

- Contributed to the delivery of the IBM WatsonX Orchestrate platform by developing the skill generation framework and the App-Connect connector service. These components now play a crucial role in WatsonX Orchestrate, efficiently converting connectors into skills within a short time frame.
- Led the team in Skills on-boarding for IBM WO using the Argo CD continuous delivery tool for a better user experience. Resolved multiple user tickets and automated the skill on-boarding process, resulting in a 40% increase in customer engagement with the IBM WatsonX Orchestrate platform.
- Enhanced the security of multiple on-premises IBM App Connect connectors by implementing a secure interface that routes confidential connection details to the switch server. This provided users with a safe way to connect to any endpoint.
- Delivered multiple database connectors based on JDBC driver to IBM App Connect. Published a blog on IBM DB2 JDBC-based connector.
